Comments:

Graded Agency:

The Department was able to maintain an "A" scorecard for a fifth consecutive year, with over \$120 billion in prime and subcontract awards, while increasing the number of Historically Underutilized Business Zones and Service-Disabled Veteran Owned Small Business concerns participating as prime contractors. The Department developed and continues to refine a Small Business Strategy to ensure a mission focus and grow a robust and capable small business defense industrial base. Small business concerns continue to form the edge of innovative change and improved performance through the Mentor Protégé Program, the Rapid Innovation Fund, and Small Business Innovation Research and Small Business Technology Transfer programs. It is with profound appreciation for the work of our small business partners and the men and women of this Department that we renew our commitment to continue working closely with the SBA to further develop our leading edge small business program at DOD. The Department will leverage resources such as the Procurement Technical Assistance Centers; maintain a mission focus as it prioritizes achievement of statutory small business and other socio-economic goals; align common spend initiatives consistent with maximum practicable procurement opportunities for small business procurement; and exploit the small business defense industrial base to help create a modernized and ready Joint Force.
